

Welcome to ELFI 2.0

The purpose of ELFI is to collect relevant information on research funding programmes, such as open calls for tender, scholarships, competitions etc.. The main concept is to gather information, keep it up to date and to provide it as accessible and reliable data in an online-database. ELFI, allows their clients, for example funding consultants and scientists to get a general idea of the available funding opportunities existing for different subjects and scientific disciplines as well as to explore programmes more specifically according to their own special profile.

With the help of the new functions of ELFI 2.0, you ...:

- are able to use ELFI without Java,
- get access to all selection trees at first glance,
- can create your own collection of information with the help of a dossier function,
- may administrate changes to your password on your own,
- may use a restricted version of ELFI without being registered,
- may refer to extracted information extracted from ELFI within your own website

Getting access to ELFI

To enter the database, please visit our Homepage <http://www.elfi.info/> and follow the link "Database research".

ELectronic Research Funding Information System

Database research

Funding Opportunities for Students

Welcome to ELFI

ELFI is an information brokerage system which supports its users in keeping up-to-date information on funding opportunities referring to the original data source. As a customer-oriented service, ELFI provides information for students, scientists and consultants all over the German-speaking area.

The user interface of ELFI will appear immediately in a new tab of your browser window. For getting access to ELFI, you have to use a computer that is located within an ELFI-customer institution. Each single request for entering ELFI is checked for authorization to ensure that it belongs to an authorized network. If you want to use ELFI at home or on your laptop you have to establish a Virtual Private Network connection (VPN) - otherwise you will be rejected with an error "403".

At one glance, the user receives an overview of those programmes expiring within the next 14 days. You have to click on any tree on the left side and highlight the category in blue. Subsequently you will receive the standard view of actual programmes within ELFI.

Welcome! Please note that all functions are available if you have logged on to your user profile.

Walter Schulz Stiftung - Forschungspreis Tumorforschung	15. Juli 2013
Universität Tübingen - LEAD Graduate School aktuell	15. Juli 2013

Even without being registered, some functions are already available, like browsing through different topics within the selection trees. Nevertheless, the whole dimension of functions is only available for users who are logged-on. Once logged on to ELFI, a user may conduct selections among different categories with the help of check-boxes and therefore combine different categories individually. In case an information item within ELFI seems relevant for your colleagues, ELFI provides you with an adequate tool to share this information with them via E-Mail.

ELFI's visual display unit

The ELFI user interface consists of two main parts: The selection trees on the left side and the display of results on the right side. When in search of relevant information, you basically use the selection trees which enable you to combine different categories, like research topics, types of funding, participating countries, types of institutions, etc.. For a detailed description of these functions, see "Profile-oriented selection of categories".

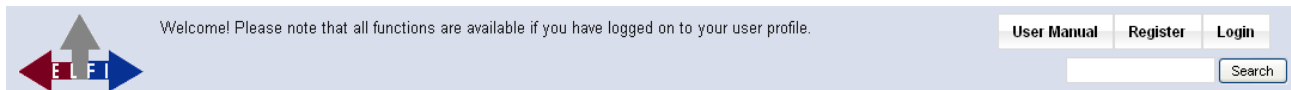

Selecting your preferred language

Users with an English-preferring browser automatically enter the English version of ELFI. If requested, you can switch to German by changing the settings of your browser. Afterwards you only need to reload the page in your browser.

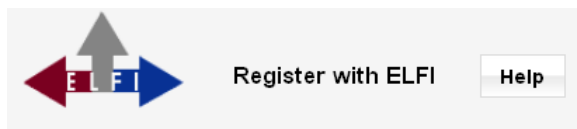

Registration

Before using ELFI for the first time, it is necessary to visit the menu item “Register” at the top of the page.

Please fill in the registration form completely. Username and password are freely eligible (the username is restricted to an amount of 20 characters, the password has to contain 8 to 20 characters). Please consider that the use of special characters is not possible. After that you click the button “Register”. If the form has not been filled in correctly or the username is already taken by someone else you will get a corresponding error message. To log-on ELFI after the registration process, please click the button “Login”. Note: Users who are already familiar with the old version of ELFI may use their existing account; it is still valid for the usage of ELFI 2.0.

Please fill in all the fields!

Username:	<input type="text" value="muster123"/>
Password:	<input type="password" value="....."/>
Password (Repeat Password):	<input type="password" value="....."/>
Salutation:	<input checked="" type="radio"/> Mr. <input type="radio"/> Ms./Mrs.
First Name:	<input type="text" value="Martin"/>
Surname:	<input type="text" value="Mustermann"/>
Academic Title:	<input type="text" value="Dr."/>
Address:	<input type="text" value="12345 Musterstadt"/>
E-Mail:	<input type="text" value="mustermann@elfi.info"/>
Phone:	<input type="text" value="0234/ 12345"/>

Login

The button “Login” will lead you to the full scope of applications. Check-boxes beneath the trees and additional applications like “Settings” or “Dossier” will appear on the screen. After logging out, your last selections are stored automatically, so after a new log-in the ELFI screen will be the same as before leaving. The interval for working with ELFI covers a time of 30 minutes, if in this time frame no actions are registered by the system, you will be logged out automatically.

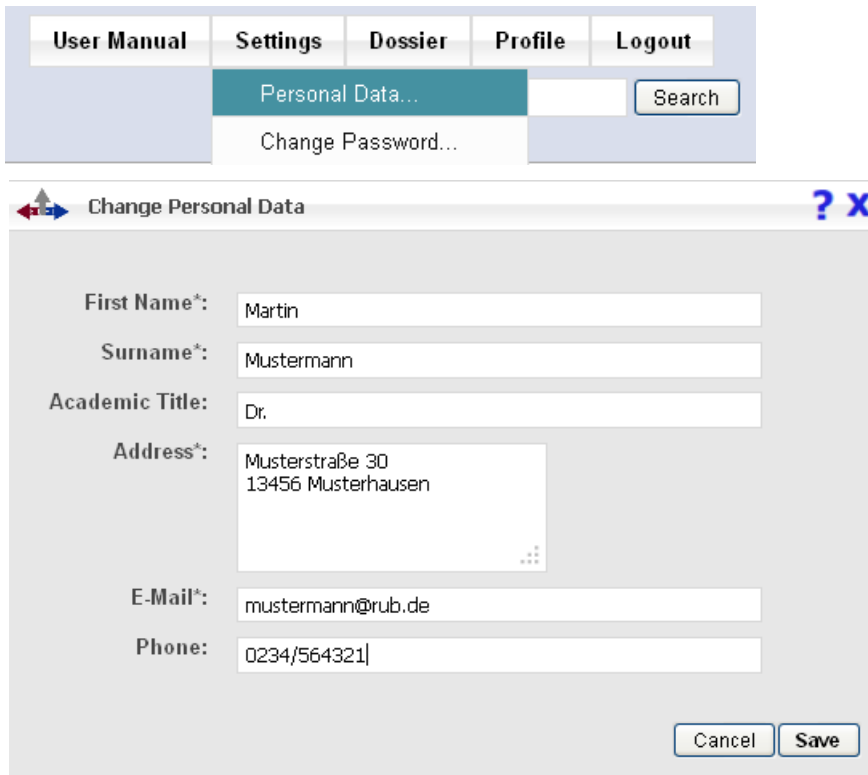

Please fill in user name and password!

Username*:

Password*:

Settings

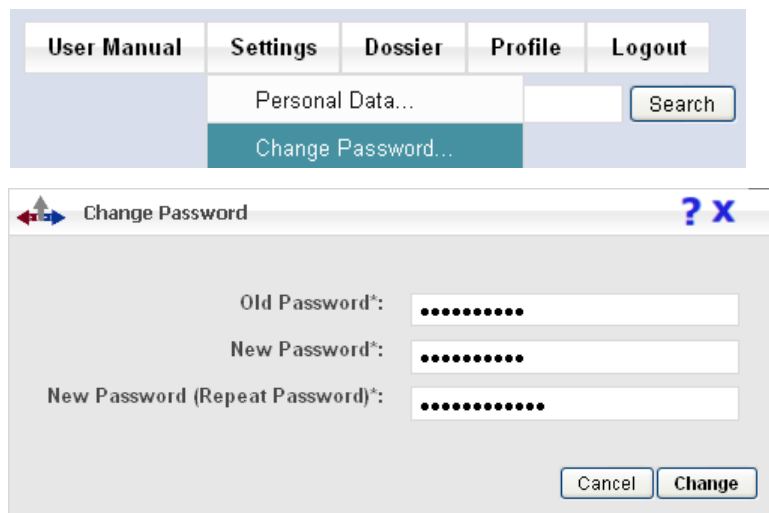

The button “Settings” reveals information to the user’s own personal data, these settings can be changed at any time by the user on his own.

The screenshot shows a navigation menu at the top with buttons for 'User Manual', 'Settings', 'Dossier', 'Profile', and 'Logout'. The 'Settings' button is highlighted, and a dropdown menu is open showing 'Personal Data...' and 'Change Password...'. Below the menu is a window titled 'Change Personal Data' with a search bar and a 'Search' button. The form contains the following fields:

First Name*:	<input type="text" value="Martin"/>
Surname*:	<input type="text" value="Mustermann"/>
Academic Title:	<input type="text" value="Dr."/>
Address*:	<input type="text" value="Musterstraße 30
13456 Musterhausen"/>
E-Mail*:	<input type="text" value="mustermann@rub.de"/>
Phone:	<input type="text" value="0234/564321"/>

At the bottom right of the form are 'Cancel' and 'Save' buttons.

The screenshot shows the same navigation menu as above, but the 'Change Password...' option is highlighted in the dropdown. Below is a window titled 'Change Password' with a search bar and a 'Search' button. The form contains the following fields:

Old Password*:	<input type="password" value="....."/>
New Password*:	<input type="password" value="....."/>
New Password (Repeat Password)*:	<input type="password" value="....."/>

At the bottom right of the form are 'Cancel' and 'Change' buttons.

Dossier

Important information found by the user can be saved as information collection within a dossier. The dossier function serves to inform other interested users within one institution about relevant sources of information. From the detailed view within a programme, sponsor or contact person you are able to collect data and forward them afterwards.

 [Add the Funding Programme to the Dossier](#)  [Add the Sponsor to the Dossier](#)  [Add Contact Person to the Dossier](#)

For the direct transmission of information, please use the function “Recommend”.

Dossier

2 Selected Funding Programmes

Funding Programme	Deadline	
The Gateway/RTF-CCR/SAKK - Call for Research Proposals neu	30. November 2012	
EFSD/Lilly - Mental Health and Diabetes Programme	01. September 2012	

1 Selected Sponsor

Sponsors		
	JDRF - Juvenile Diabetes Research Foundation International	

For this dossier no Contact Persons are selected.

[Send Dossier](#)

[Delete Dossier](#)

To delete items within a dossier use the dustbin-icon at the end of a row.

Send Dossier

With the help of the function “Add Profile E-Mail Addresses” the deposited e-mail addresses from your profile automatically adopted.

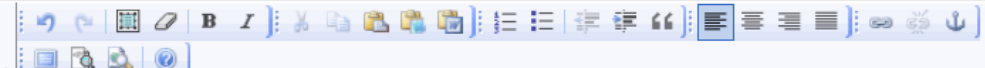

Send Dossier ? X

Please enter an e-mail address which should obtain this recommendation. If you wish to obtain a copy of your e-mail you have to mark the checkbox: Obtain a Copy.

Recipient*: 
 

Obtain a Copy (cc):

Reference:

This e-mail was sent to you from Hans-Otto Mustermann with [ELFI-System](#).

I recommend you the funding programmes:

- [The Gateway/RTF-CCR/SAKK - Call for Research Proposals](#)
- [EFSD/Lilly - Mental Health and Diabetes Programme](#)

The sponsor [JDRF - Juvenile Diabetes Research Foundation International](#) could be of interest for you.

Recommendation

This function is used to mail sources of information directly. If you forward relevant findings to your own e-mail address, you will receive a useful link that can be used to integrate these information within your own web pages.

[Recommend Funding Programm](#)

[Recommend Sponsor](#)

[Recommend Contact Person](#)

Within the forwarding process, a separate editing window appears. Via e-mail you can send your findings to any recipient.

If you want to receive a copy, please mark the field “Obtain a Copy”. The e-mail editor also allows you to set individual formatting options. The symbol “Editor maximieren” helps to maximize the editor to the full scope of your screen. Via e-mail, the addressee receives an URL pointing at the corresponding program within ELFI. Please take into consideration that this is only possible within authorized networks.

Print

Furthermore, it is possible to print information from ELFI directly:

[Print Funding Programme](#)

[Print Sponsor](#)

[Print Contact Person](#)

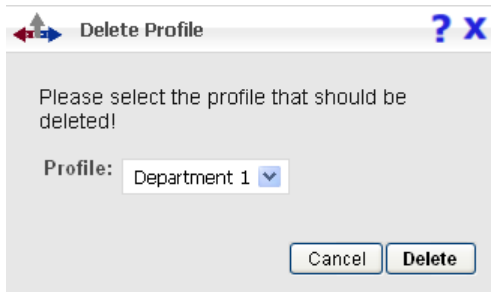

Profile

In addition to your own profile, you are invited to create further profiles for the benefit of third parties. This function is especially useful to funding consultants who wish to generate and work with profiles for different scientists they work for. Once a new profile has been generated, it may serve as a template you always can go back to for future investigations. You switch back to your own profile by clicking at “Your own Profile”.

Profile	Logout
Create a Profile...	
Delete a Profile...	
Resetting Profile	
Your own Profile	

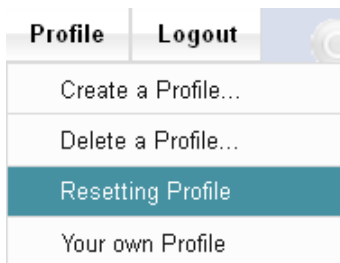

Profile	Logout
Create a Profile...	
Delete a Profile...	
Resetting Profile	
Your own Profile	
Department 1	

Once created a profile also can be deleted by the user himself at any time. Please note: To be able to delete one of your sub-profiles you have to change to the mode “Your own profile”.

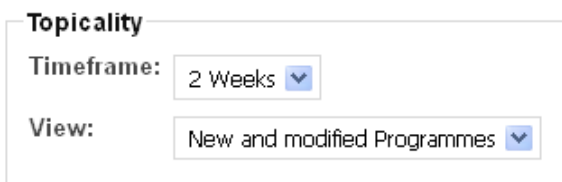

Resetting a profile

With the function “Resetting Profile” all previous selections of categories will be removed. All check-boxes will be reset to start a new search.

Setting a time frame

After the login you receive an overview of “Current Programmes”. These may be marked with the symbols **neu** (new) or **geändert** (updated). The menu bar “Timeframe” allows you to specify the interval of time (1 day up to 4 weeks).

Please note: Changing time settings is only possible while being logged-in.

Using the menu bar “View” is only useful in combination with the menu bar “Timeframe”. Click on the particular tab to make a choice. You can observe the respective changes immediately on the right side of your screen. There are the following distinctions:

- “*New and modified Programmes*”

This category shows the new or modified entries listed in the database (for example updated information on substantial changes, deadlines, etc.).

- “*Current Programmes*”

In this list you can find all currently active programmes whose deadlines have not expired yet.

- “*Expired Programmes*”

A programme archive that only includes programmes with deadlines which have already passed. Most of these programmes may be announced once again at a later date.

Note: If you receive the message “*No Funding Programmes on ...*” the time period may have been chosen too narrowly (default setting: 2 weeks).

General and Specific Programmes

Within the list of results you will find a differentiation between “General” and “Specific” programmes. This classification can also be found among the respective category, e.g. “History” (90 General / 49 Specific). The sorting “General” always refers to the superordinate category (here: “History”) while “Specific” refers to respective sub-categories (e.g. “History of Science”). When visiting each sub-category belonging to “History”, there will not be any further subdivision because you are already at the bottom of differentiation.

The screenshot shows a user interface for searching funding programmes. On the left, there is a sidebar titled 'Topicality' with a 'View: Current Programmes' dropdown. Below it, there are several sections for filtering results: 'Funding Programmes sorted by Research Topics', 'Funding Programmes sorted by Kinds of Support', 'Funding Programmes sorted by Interdisciplinary Topics', 'Funding Programmes sorted by Areas', 'Funding Programmes sorted by eligible Institutions', and 'Sponsors'. The 'Research Topics' section is expanded to show 'History (90 / 49)' with sub-categories like 'Early Modern History (1)', 'History of Science (27)', 'Medieval History (12)', and 'Modern and Current History (34)'. The main content area is titled '90 general and 49 specific Funding Programmes on History'. It has tabs for 'general Programmes' and 'specific Programmes'. Below the tabs, it says 'Currently page 1 of 6 is shown with the funding programmes 1 - 15.' and 'Show Funding programs per page: 15'. There is a pagination bar with numbers 1 through 6. Below that is a table with three columns: 'Sponsors', 'Funding Programme', and 'Deadline'. The table lists various funding programmes with their respective sponsors and deadlines, sorted in descending order of deadline.

Sponsors	Funding Programme	Deadline
AKHFG - Arbeitskreis Historische Frauen- und Geschlechterforschung	AKHFG - Dissertations-Preis	01. März 2015
Historischer Verein für Geldern und Umgegend e. V.	Historischer Verein für Geldern und Umgegend - Karl-Heinz-Tekath-Förderpreis	30. November 2014

Profile-oriented selection of categories

Six selection are combined to filter programmes from the system. Each selection tree helps to combine or exclude several criteria. *General overview of selection trees within ELFI:*

Funding Programmes sorted by Research Topics
Research Topics (716 / 2114) <input checked="" type="checkbox"/>
Funding Programmes sorted by Kinds of Support
Kind of Support (29 / 2801) <input checked="" type="checkbox"/>
Funding Programmes sorted by Interdisciplinary Topics
Interdisciplinary Topics (1614 / 1216) <input checked="" type="checkbox"/>
Funding Programmes sorted by Areas
World (632 / 2198) <input checked="" type="checkbox"/>
Funding Programmes sorted by Eligible Institutions
General (2129 / 701) <input checked="" type="checkbox"/>
Sponsors
All Sponsors <input checked="" type="checkbox"/>

Funding Programmes sorted by Research Topics

This selection tree is the most important one where the main research subjects can be set.

Altogether, there are four main categories:

- **Engineering Sciences**
- **Humanities and Social Sciences**
- **Life Sciences**
- **Natural Sciences**

Subjects forming the ELFI selection tree “Research Topics” are created on the basis of the “DFG Review Boards”, see: http://www.dfg.de/en/dfg_profile/statutory_bodies/review_boards/index.html

Funding Programmes sorted by Kinds of Support

This selection opportunity provides you with the possibility of setting limits to selected types of funding, e. g. project, postgraduate studies, scholarship etc..

Funding Programmes sorted by Interdisciplinary Topics

This tree serves as an addition to the selection tree “Research Topics”. Among this category interdisciplinary topics like “Gender Studies” or “Human Rights” can be chosen.

Funding Programmes sorted by Areas

Among this section, you can choose between different countries or regions that are eligible for funding. This selection opportunity may be useful for collaborative / joint research projects.

Funding Programmes sorted by Eligible Institutions

An open call can be addressed to one or more interest groups eligible for funding. Several distinctions can be made, for example: companies, public research or other institutions like non-profit organizations.

Sponsors

Among this category you will find all sponsors registered on ELFI together with their funding opportunities.

Selection and Browsing

“Selection” and “Browsing”: These two operations are the most important steps while working with ELFI. Both functions must be used successively to ensure that the results will be displayed as requested.

1. Selection: Pre-selection by marking check boxes

By marking the respective boxes, the first selection for categories of your interest is set.

The left screenshot shows a selection tree for 'Funding Programmes sorted by Kinds of Support'. The 'Project (569)' option is checked, while others like 'Awards (13 / 5)', 'Financial Assistance (18 / 95)', 'Investment Credits (1)', 'Joint project (48)', 'Others (32)', 'Study (33)', and 'Young Reserachers Support (0 / 62)' are unchecked.

The right screenshot shows a selection tree for 'Funding Programmes sorted by eligible Institutions'. The 'Company (90 / 57)' option is checked, while others like 'General (442 / 145)', 'Authority (4)', 'Others (7)', 'Private Non Profit (2)', and 'Public Research (40 / 83)' are unchecked.

Selected Kind of Support: “Project”

Selected Eligible Institutions: “Company”

2. Browsing: Concrete display of results, at your current position within a selection tree

Your position should be the tree “Research Topics”. In the case that a research theme is of interest its check-box already should have been marked (see step 1). Now it has to be activated by clicking on it in order to expose corresponding results - the category is highlighted in blue. In case of more than one topic highlighted, you have to go up or down on each single topic and highlight it in blue.

Overview of results: *Projects for Companies within “Computer Sciences”*

The screenshot shows the 'Research Topics' tree on the left, with 'Computer Science' highlighted in blue. The main content area displays a table of funding programmes. The table has three columns: Sponsors, Funding Programme, and Deadline.

Sponsors	Funding Programme	Deadline
BMBF neue Programme	BMBF - Photonik Forschung Deutschland	31. Dezember 2015
European Space Agency (ESA)	ESA - IAP - Open Call For Proposals for Artes 20	31. Dezember 2014

BMBF neue Programme	BMBF - Richtlinien zur Förderung "e:Bio - Innovationswettbewerb Systembiologie"	01. November 2013
BMVIT - Bundesministerium für Verkehr, Innovation und Technologie (Österreich)	BMVIT - "austrian electronic network" (AT.net) Phase 3	19. August 2013
BMBF neue Programme	BMBF - WTZ mit Brasilien (Wissenschaftlich-Technologische Zusammenarbeit)	26. Juli 2013
BMBF neue Programme	BMBF - Förderung von Forschungsvorhaben zu den ethischen, rechtlichen und sozialen Aspekten systemmedizinischer Forschungsansätze und ihrer möglichen klinischen Anwendungen	01. Juli 2013
Technologiegründerfonds Sachsen Verwaltungs GmbH (TGFS)	TGFS - Technologiegründerfonds Sachsen	offen
Hasler Stiftung	Hasler Stiftung - Projektförderung	offen
BMBF neue Programme	BMBF - Nanoelektronik und -systeme	offen
BMBF neue Programme	BMBF - KMU-innovativ: Informations- und Kommunikationstechnologie (IKT)	offen
BMBF neue Programme	BMBF - KMU-innovativ: Forschung für die zivile Sicherheit	offen
BMBF neue Programme	BMBF - KMU-Innovationsoffensive Informations- und Kommunikationstechnologie (IKT)	offen
BMBF neue Programme	BMBF - IKT 2020 - Forschung für Innovation	offen
BMBF neue Programme	BMBF/DFG - Sonderprogramm Geotechnologien	offen

Hint: Within the selection tree “Funding Programmes sorted by Research Topics” the selection of several research themes is not necessarily required. In most cases it is sufficient to set checkmarks only within the other trees, like “Kinds of Support” and switch back to the “Research Topics” afterwards. By clicking on each relevant research category gradually (blue highlight), you'll receive the corresponding results on the right side of your screen. Summarizing, the selection is necessary to set a preselection in the first place. Only after highlighting this category in blue in the second place, the result will be displayed as requested.

Full text search

The input field for full text search (top right) can be used from all positions within the ELFI database. The search terms may be entered in English or German. Within the result list you can switch from the headline to see the entries' detailed view. The full text search works with a truncation and is case insensitive. The combination of search terms is automatically interpreted as a conjunction.

Full text search by entering keywords into the search field

Description:

The Royal College of Physicians (RCP) has been supporting and representing physicians for nearly 500 years. Our roots stretch back to Henry VIII, but our members today work in the fast-paced, ever-changing, highly technological world of medicine.

Funding Programmes:

Funding Programme	Deadline
Royal College of Physicians - Samuel Leonard Simpson fellowships in endocrinology	01. September 2012
